

# Product Search

Product Search allows you to search for any product on your list. You can then view key information about it including: quantity needed for today based on sales forecast, how much to order for each day, your current stock position, variance information and whether it has a Stock Alert on it.

## 1 From Home Screen

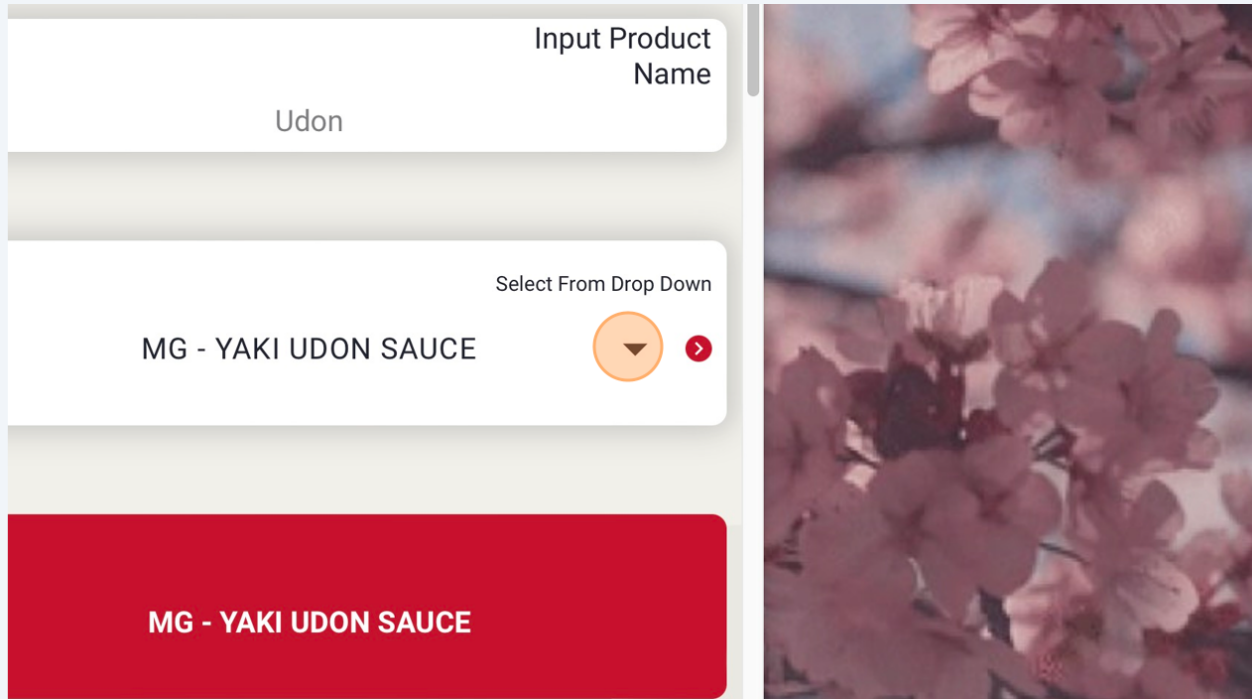

2 Click "Product Search"

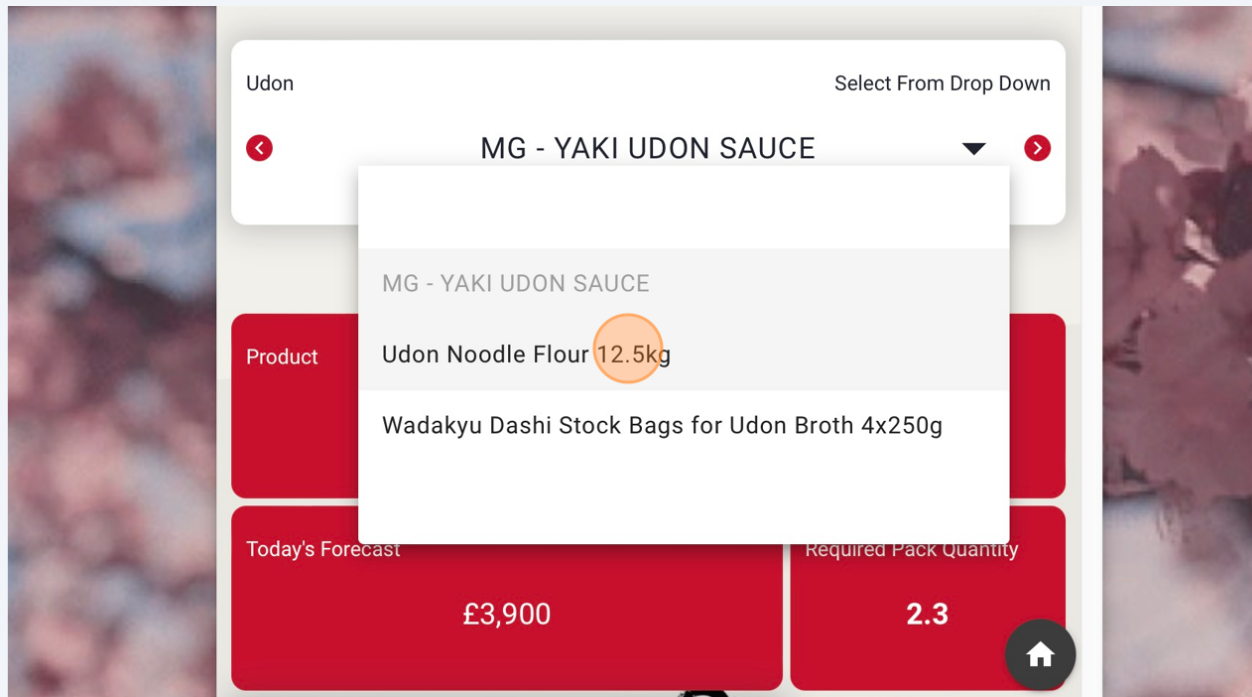

3 Click the Input Product Name text field and type in the name of the product you are searching for

4 Click here

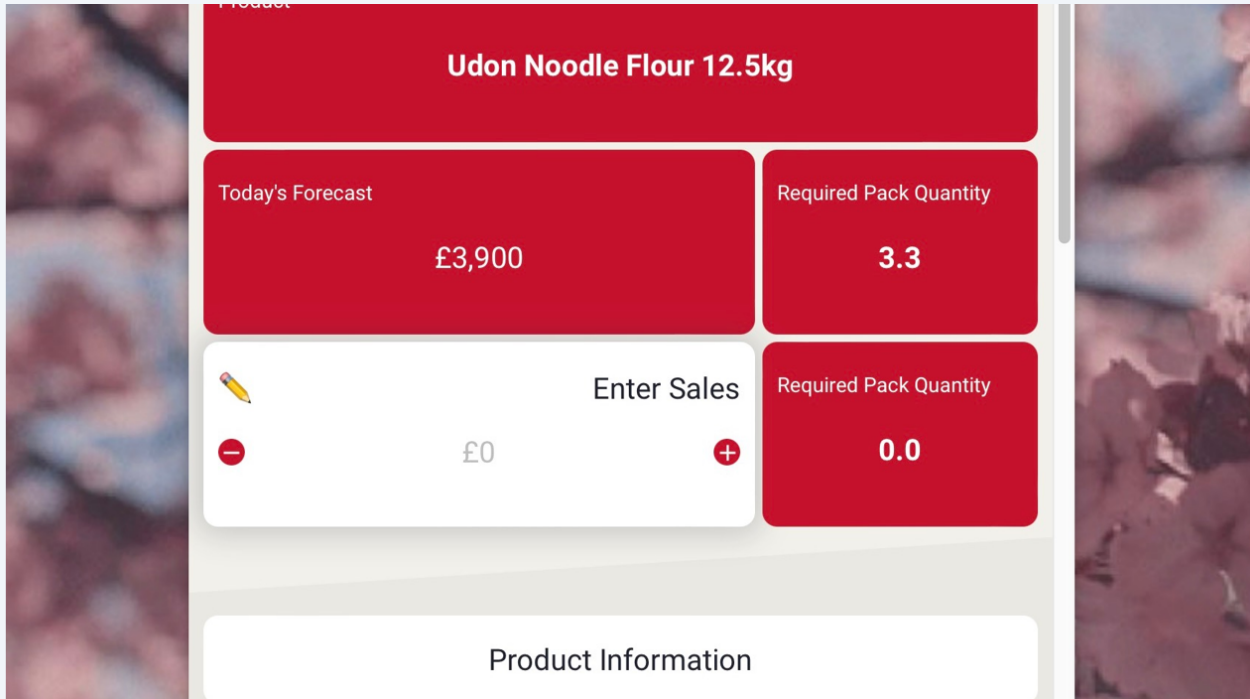

5 Select the correct product from the drop down options.

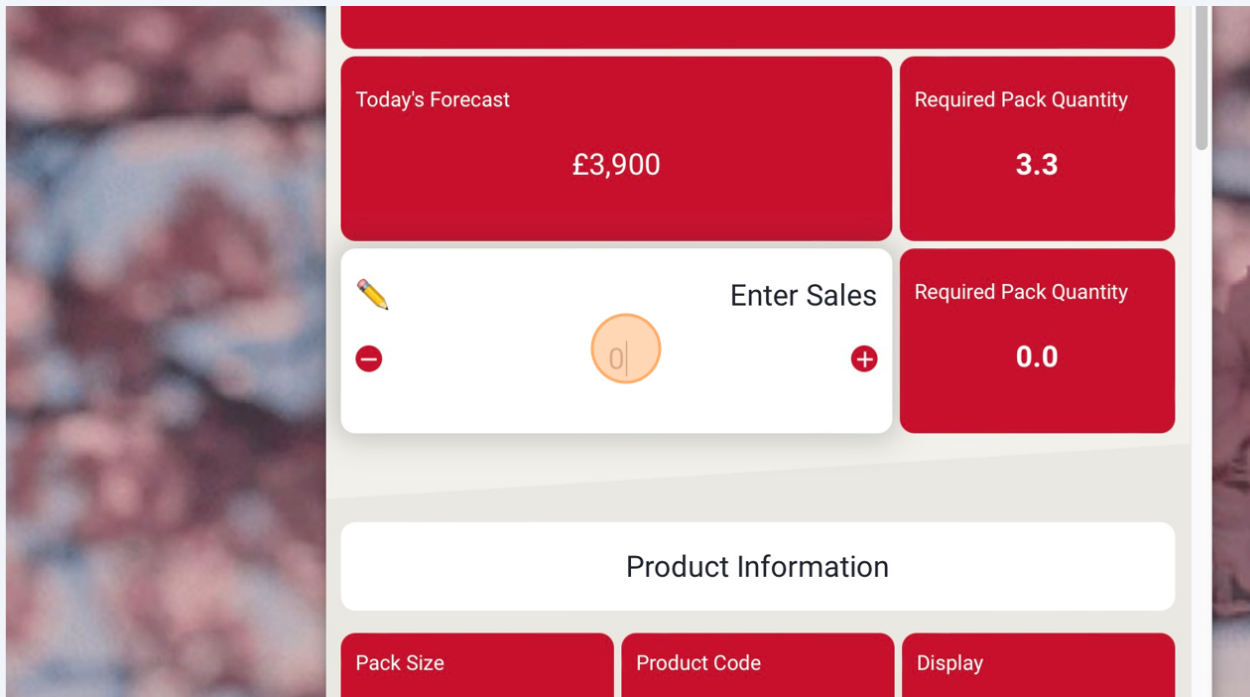

6

You can see the product name, today's forecast and the required pack quantity for today.

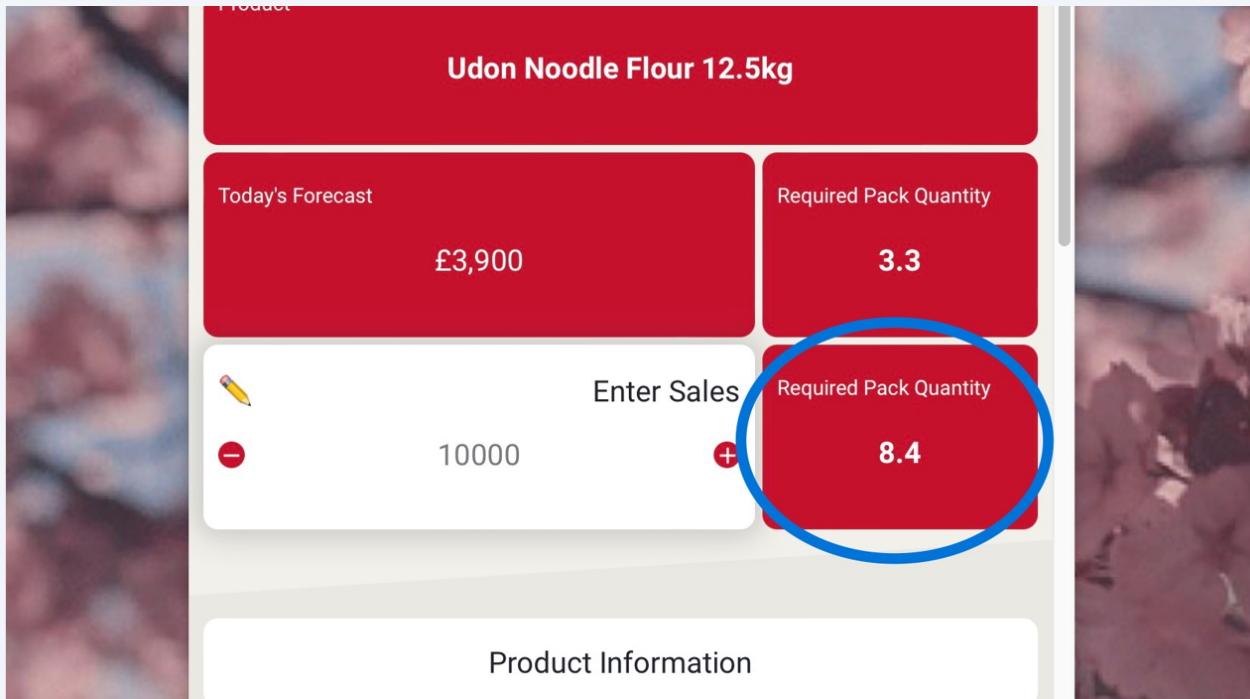

7

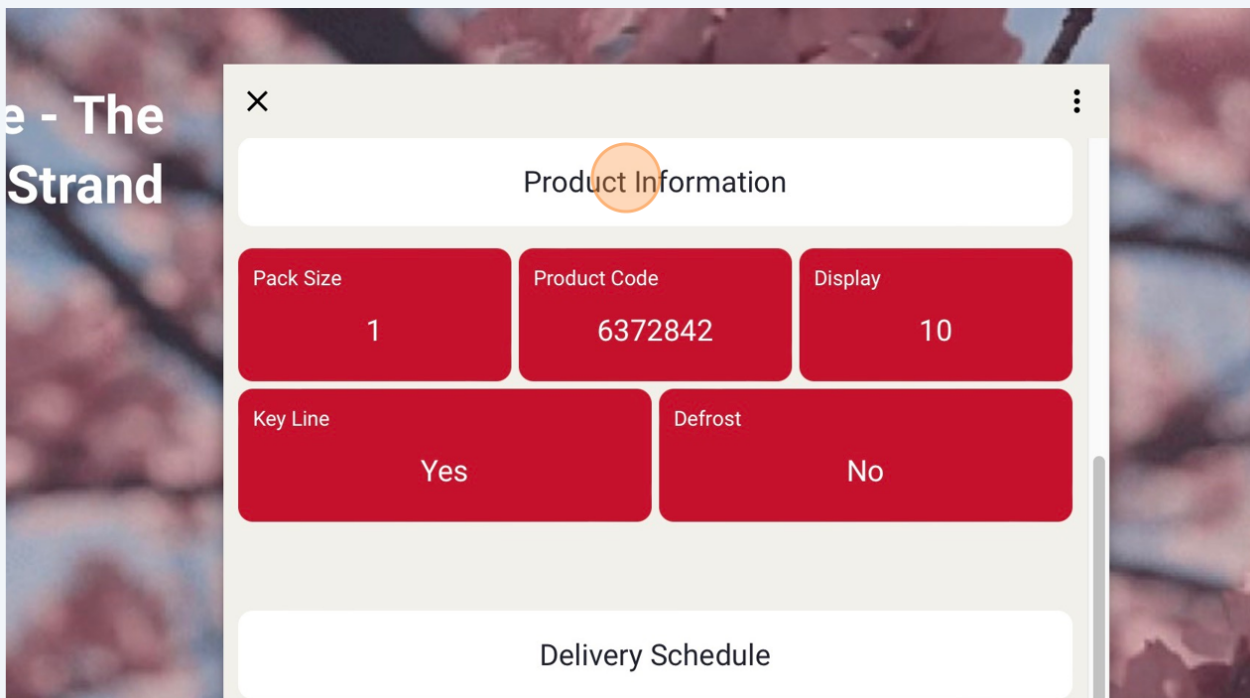

To see how much you'll sell for a different daily sales amount, enter the figure here.

8 You can now see how much you'll need for the adjusted daily sales amount.

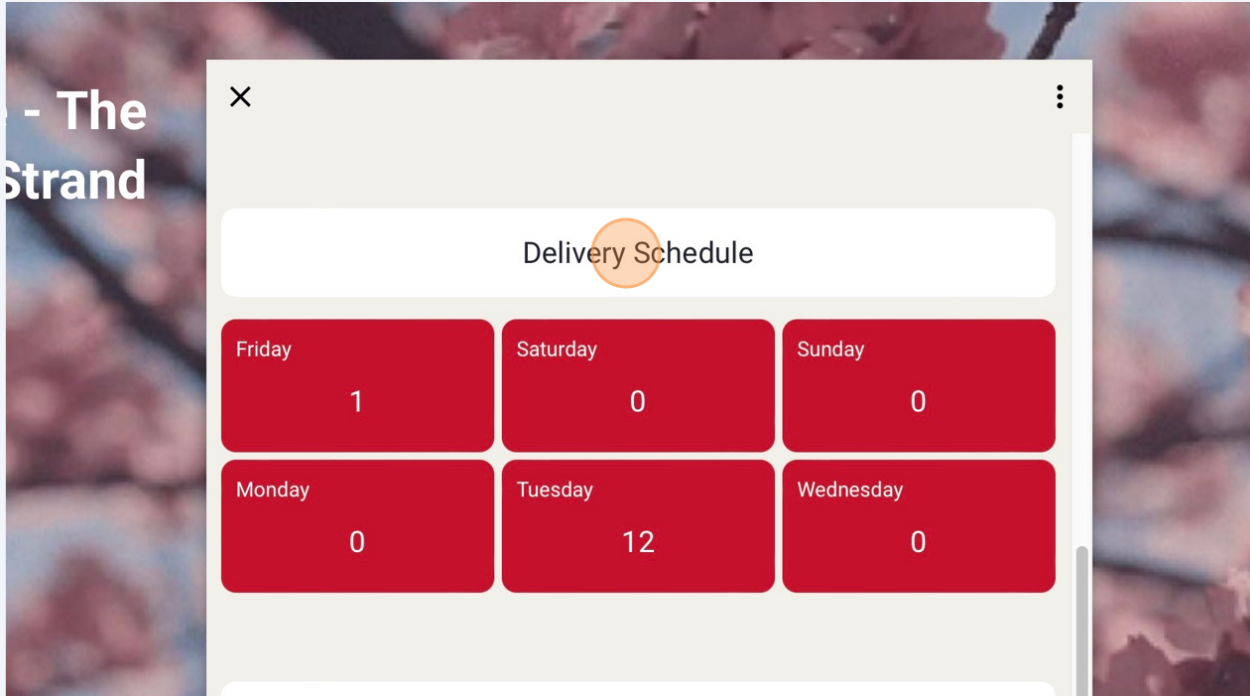

9 Product Information shows you Pack Size (the number of units in each pack), Product Code, Display (the number of units you should have on display for this product), Key Line (this applies an ordering buffer to ensure you never run out) and Defrost (whether the product is a defrost item or not).

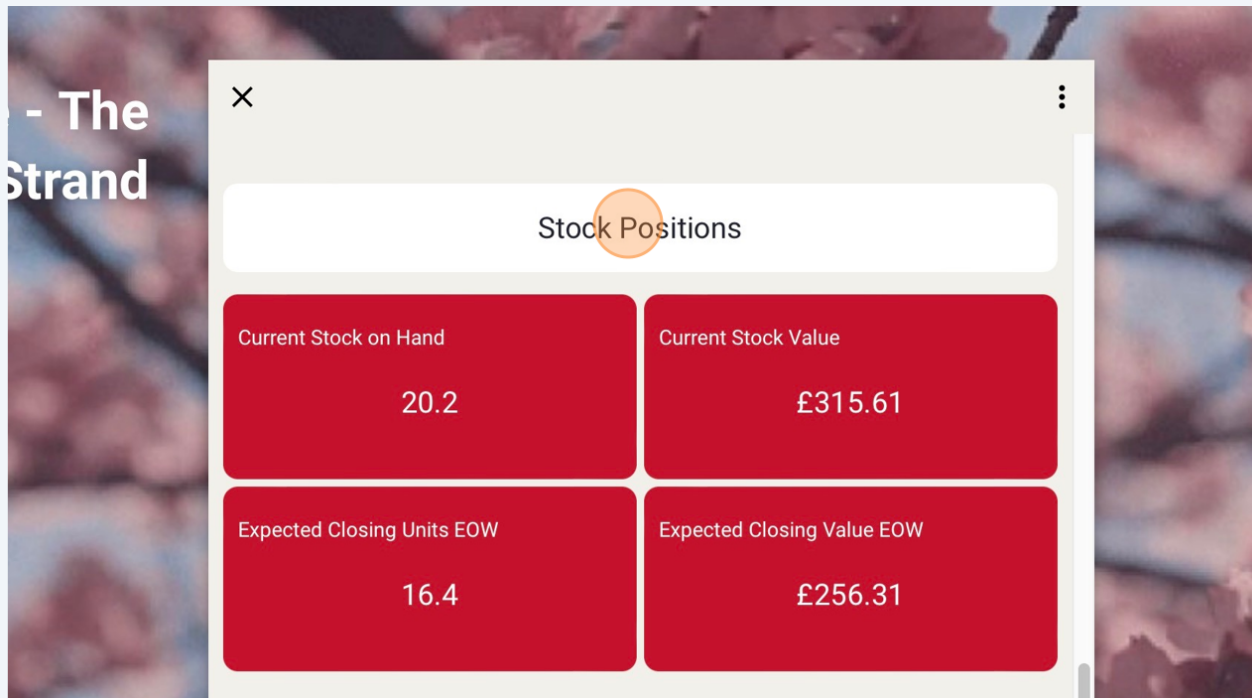

10

Delivery Schedule show you the same information as the Weekly Order section - how much you need to order for each day.

11

Stock Positions shows you your last declared stock on hand in units and cash value for this product. It then shows you the expected closing positions for the end of the week based on you ordering the suggested order quantities and hitting your sales forecast.

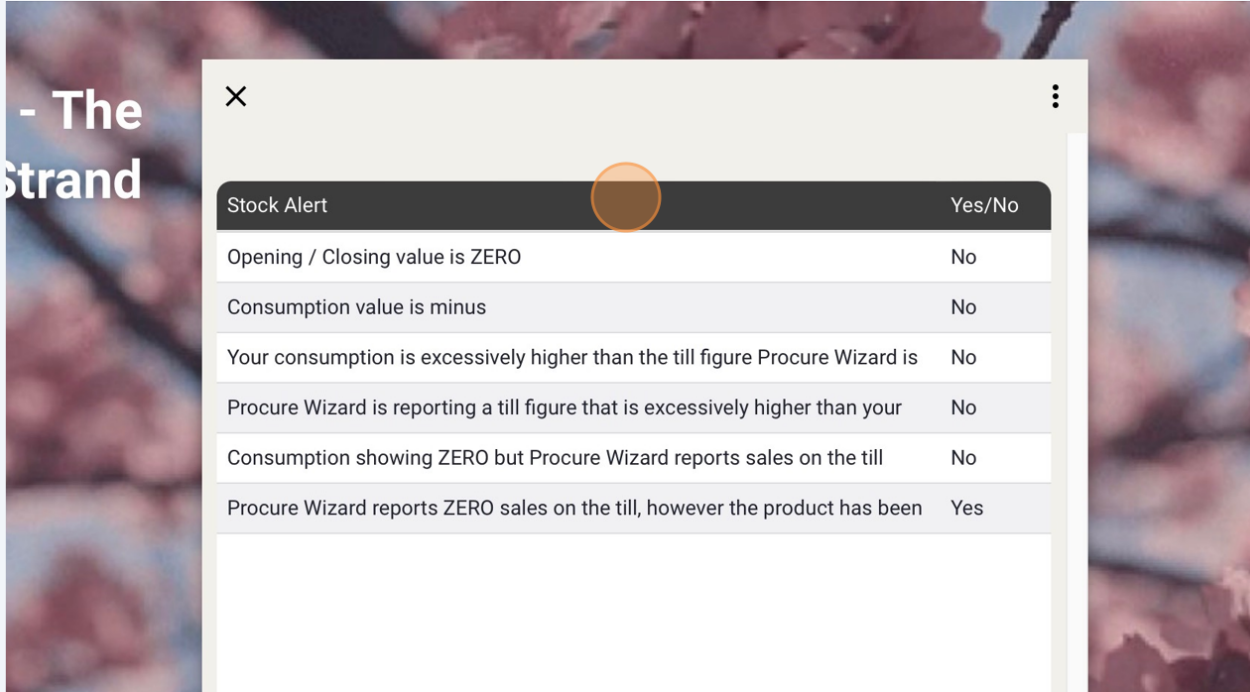

12

Variance show you the weekly variance cash figure for this product from a 4 week sample.

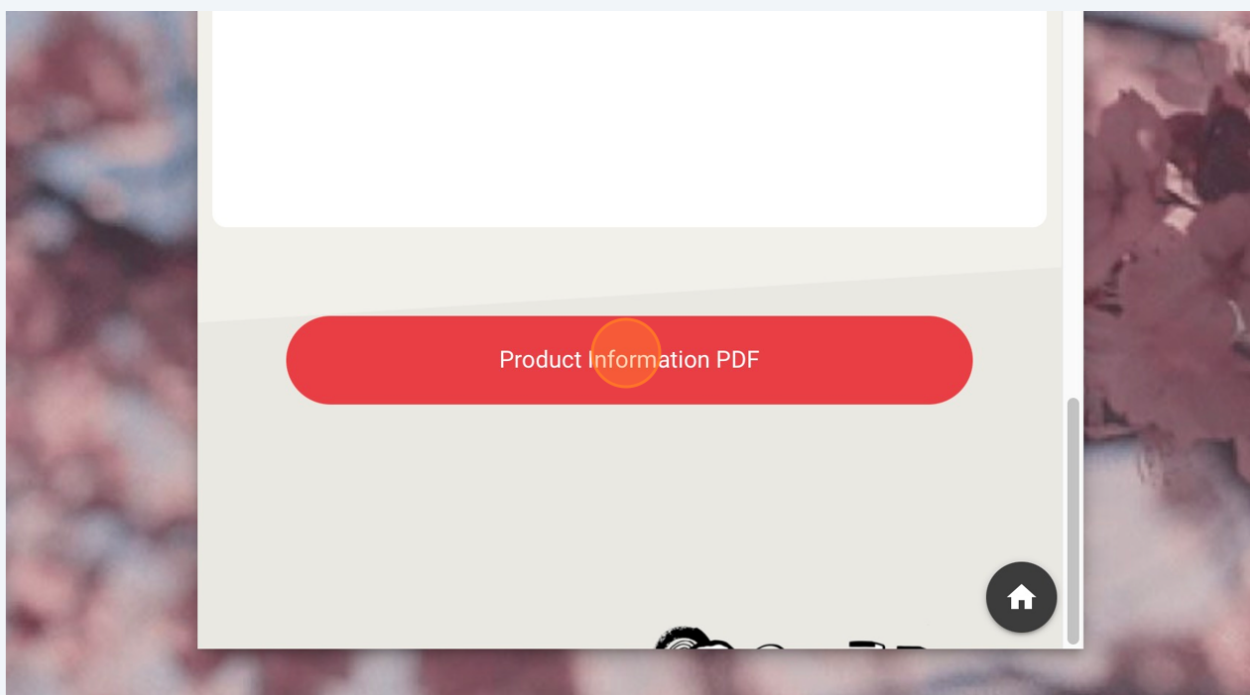

13

The table shows you if this product has any Stock Alerts on it. If it does you can go to the Stock Alerts section in StockBuddy to take appropriate next steps before ordering.
